

Harry Waterman

watermah@uci.edu | Irvine, California

[Website](#) | [Github](#)

Summary

Running AI safety capacity-building programs across BlueDot Impact and UC Irvine. Producing a weekly interview series that connects career-switchers with safety orgs, and directing a 30-person technical fellowship with four facilitators. Applied mathematics background with operational and technical skills.

Skills

Operations: Event organizing, fellowship coordination, community building, responsive web design

Technical: Linux, Git, Python (ML fundamentals, PyTorch), TensorFlow, HTML/CSS, AWS (DynamoDB, S3)

Communications: Writing, editing, public-facing AI safety content, visual design in Figma and Inkscape

Experience

Event Producer (Contract) | BlueDot Impact

April 2026–Present

- Produce *Inside X*, a weekly virtual interview series featuring AI safety orgs (Apollo Research, Goodfire, SaferAI, Pivotal, Seldon Lab, Successif) for researchers, engineers, and career-switchers entering the field
- Own full production loop: guest outreach, Luma setup, multi-channel promotion, session hosting, and post-session follow-up; maintain a 3+ week booking buffer
- Built episode log, guest pipeline tracker, templated outreach, and a post-session survey instrumented with capacity-building metrics

Co-director | AI Safety UCI

Sept 2025–Present

- Succeeding founding president; leading student outreach, partnerships, and long-term organizational direction
- Lead the Technical Intro Fellowship for 30+ students per quarter: manage 4 facilitators, design curriculum, and coordinate operations end-to-end
- Designed and hosted the group website from scratch: aisafetyuci.org
- Helped organize the EA UCI × UCLA retreat

Freelance Developer | The Hirschhorn, Next Exit AI

Jan–March 2025

- Built serverless backend for thehirschhorn.com: AWS Lambda (Python), S3 object storage, Cognito JWT authentication, and presigned URL image uploads
- Developed branding and UI/UX for nextexit.ai

Camp Counselor | Berkeley Day Camp

Summers 2021–2022

- Turned a disorganized aftercare effort into a well-defined program; trained three co-workers to continue it after my departure

Programs & Training

AGI Strategy Course | BlueDot Impact

March 2026

- Completed structured curriculum on AI governance, strategy, and the landscape of existential risk from advanced AI

Selected participant | AISST/MAIA Technical Workshop (Essex Woods) & Kairos Action Potential Retreat *March 2026*

Education

University of California, Irvine

Expected grad: June 2027

Applied and Computational Mathematics BS.

Relevant coursework: Linear Algebra, Probability, Statistics, Differential Equations, Multivariable Calculus, Technical Writing
